I am a Data Science and Artificial Intelligence student at PUCRS with experience in data analysis, artificial intelligence, and automation. Skilled in Python, Pandas, Power BI, and SQL, with strong analytical thinking and attention to detail. Interested in AI system evaluation, content quality, digital safety, and the continuous improvement of intelligent models, contributing through accurate analysis and structured feedback to support the development of high-quality AI solutions.

Objective

To contribute to projects involving Artificial Intelligence, Content Evaluation, Data Science, and Automation by applying analytical and technical skills to enhance the quality, safety, and performance of AI-driven systems through data-driven insights and structured problem-solving.

Education

Bachelor's Degree in Data Science and Artificial Intelligence

Pontifical Catholic University of Rio Grande do Sul (PUCRS)

5th Semester

Expected Graduation: 2028

Projetos

Data Detective (Personal Project)

- Interactive platform designed to teach SQL through data-driven mystery-solving challenges
- Development of query logic and analytical problem-solving structures
- Practical application of SQL in simulated investigation scenarios

Palmer Penguins Data Analysis (Academic Project)

- Performed Exploratory Data Analysis (EDA) using Python and Pandas
- Handled missing values and conducted variable analysis
- Evaluated class balance and identified patterns within datasets

---

Wikipedia Crawler & Connection Graph (Academic Project)

- Automated data collection from the Portuguese Wikipedia
- Built a graph representing connections between individuals
- Implemented the Breadth-First Search (BFS) algorithm to calculate degrees of separation

---

IMDb Web Scraping (Academic Project)

- Collected data using Selenium
- Simulated browsing behavior to overcome basic website protections
- Structured datasets for further analysis and insights

Professional Experience

Freelancer - Fiverr | 2020

- Assisted clients with digital service requests
- Managed projects, deadlines, and deliverables
- Developed communication, organization, and self-management skills

Event Operations – STU Pro Tour | 2025

- Worked at an international sporting event held at the Guaíba Waterfront
- Communicated in English with athletes, teams, and media representatives
- Coordinated staff activities and managed access control using Excel

Legal Operations Intern – Lini & Pandolfi | 2026 - Present

- Supported operational and administrative activities within the Legal Operations department
- Assisted in data validation and organization of internal documentation
- Supported teams in strategic routines and workflow organization

- Utilized systems and tools for information management, consultation, and analysis
- Contributed to operational efficiency and continuous improvement initiatives

Certifications

- AI-900: Microsoft Azure AI Fundamentals — Microsoft
- Fluency in Artificial Intelligence — Microsoft
- Responsible Prompting: Maximizing AI in your Business — Microsoft
- AI and Responsibility: Creating a Positive AI Future — IBM
- Storytelling — University of Chicago
- Leadership for Digital World — IE University

Skills

Programming Languages:

- Java
- Python
- R
- SQL/mySQL
- Git e Github

Office:

- Excel
- Word
- Power Point

Data & Analytics:

- Power BI
- Businnes Intelligence (BI)
- Businnes Analytics (BA)
- Big Data

Others:

- Photoshop
- Canva
- Project Management

Languages

English – Upper-Intermediate (B2)
• English course at Yázigi Language School (2 years)
• English course at EBAC – British School of Creative Arts & Technology (1 year)
French – Elementary (A2)
• French I course at PUCRS (1 semester)
